Robertson Appointed Dean Of Students

By MIKE BUEL

Dr. B. Ken Robertson, associate professor of chemistry, was appointed the new dean of students as of August 1, 1979.

As the new dean of students, Dr. Robertson replaces Paul E. Ponder who has assumed the position of registrar at UMR.

Dr. Robertson, 41, joined the Rolla chemistry faculty in 1965. He holds a B.A. in chemistry from West Texas State University and his Ph.D. in chemistry from Texas A&M University.

Chancellor Joseph M. Marchello expressed his appreciation to the students and

faculty involved in the search. "Ken was highly recommended," he said. "I feel confident that Robertson has the academic and professional background which will enable him to serve this campus well in his new post. I'm sure the UMR students will find him a pleasure to work with and I look forward to the association."

For the past 10 years he has served as faculty adviser to the local Gamma Xi chapter of Sigma Nu fraternity and is now serving as president of the Missouri Assembly of Faculty in Higher Education, a faculty advisory group to the Coordinating Board for Higher Education.

Tankersley Dies

By PAUL BRAUN

W. R. (Dick) Tankersley, a lecturer in petroleum engineering at UMR, died suddenly at his home on Tuesday, August 7, 1979. He was 50 years old.

Tankersley received his bachelor of science degree in mining engineering (petroleum option) from MSM in 1952. From the time he graduated until 1977, he was employed by Chevron Oil Company as a petroleum engineer, area production engineer, production coordinator, and senior production engineer in Barataria and New Orleans, Louisiana. Last year Tankersley returned to UMR and joined the petroleum engineering faculty as a lecturer.

In May, Tankersley was one of twenty-one UMR faculty members named as outstanding teachers for the 1978-79 school year, as chosen by the students and faculty.

He was a member of the American Institute of Metallurgical and Petroleum Engineers, several honorary fraternities and the Rolla Lions Club, as well as a veteran of the U.S. Army.

He is survived by his wife, Louise, of Rolla; a daughter, Richie Tankersley of Kansas City; his mother, Dereatha Tankersley, of Rolla; two brothers, Donn Tankersley of Rolla and Ted Tankersley, of Joplin, and a sister, Nadine McGregor, of Rolla.

A memorial fund has been established to the Missouri Heart Association.

Dean Halligan Resigns

SOURCE: OPI

Dr. James E. Halligan, dean of the School of Engineering at the University of Missouri-Rolla, announced his resignation from that position, effective Aug. 15, at a meeting of the School of Engineering faculty at 3:30 p.m. on Friday, June 15.

Dr. Halligan, who has been at UMR for the past two years, has accepted an appointment as dean of engineering at the University of Arkansas in Fayetteville.

"It has been a pleasure on my part to serve as dean for the past two years," Dean Halligan

told the faculty members at the meeting. "You and your associates have made great progress in the development of the program within the division, and I have been the recipient of many compliments concerning your achievements."

"I am convinced that the division is on the verge of developing a nationally recognized research program within several of the departments, and these accomplishments are due entirely to your efforts. I shall always consider it an honor to have been associated with the high quality program which you have developed and will

Back To English

Pogue Steps Down

SOURCE: OPI

Dr. Jim C. Pogue, provost and dean of faculties at the University of Missouri-Rolla, has submitted his letter of resignation for that position.

Dr. Pogue said he plans to resume responsibilities as Professor of English in the Department of Humanities, effective with the beginning of

the Fall Semester, 1980. He will continue as Provost until a replacement is found.

In accepting the resignation, Chancellor Marchello praised Dr. Pogue for his cooperation and service to the Rolla campus. "I appreciate Jim's willingness to continue as Provost for the time being," he said. "As soon as possible, I will select a committee to advise me on beginning the selection process for a new Provost."

"Also, on behalf of the entire UMR faculty and administration, I want to thank Dr. Pogue for his many years of administrative service. He has contributed a great deal to the growth and development of this campus. I would add, on a more personal note, that Jim has been a great help to me during my first year here and I have enjoyed and appreciated working with him."

Dr. Pogue first joined the Rolla staff as a professor of English and chairman of the Department of Humanities in 1964. In 1969-70 he served as director of the Division of Liberal Arts and in November, 1973, he was appointed acting Dean of Faculties. In December, 1974, he was promoted to his present title of Provost and Dean of Faculties. From

January, 1977, until August, 1978, he served the Rolla campus as interim chancellor.

Dr. Pogue was born in Electra, Texas. He received his B.S. and M.S. degrees in English from Kansas State College at Emporia in 1955 and 1956 and his Ph.D. in English from the University of Missouri-Columbia in 1964. He was also an English instructor from 1956 through 1963 at UMC and served a year as an assistant professor of English at Wayne State College in Nebraska before joining the UMR faculty.

From 1951 to 1954 he served in the U.S. Army as a member of the Counter Intelligence Corps.

Dr. Pogue's general area of scholarly interest is English Renaissance drama. He is a member of several honorary fraternities, a number of professional associations and societies and is listed in three professional recognition publications. His memberships include Kappa Delta Pi, Phi Kappa Phi, Kappa Kappa Psi and Who's Who. He has received many awards of recognition such as selection as an Honorary Knight of St. Pat in 1977 and service as an official judge for the National Council of Teachers of English achievements awards program.

Thursday

RAIDERS

On Tuesday, August 28 at 7:00 p.m. in building T-2, there will be a general membership information meeting. Anyone interested in the organization is encouraged to attend. Refreshments will be served.

On Thursday, August 23 at 7:00 p.m. in building T-2, there will be a staff meeting. All current members should attend.

GDI

GDI General Membership meeting Thursday, 7:00 p.m. in the Civil Engineering auditorium, room 114. Memberships will be sold. Refreshments will follow meeting.

UNIVERSITY ORCHESTRA

The University of Missouri-Rolla Symphony Orchestra will begin rehearsals for the December 2 performance of Antonio Vivaldi's Gloria on Thursday night, August 23 at 7:15 p.m. in Room 101 of the Music Rehearsal Building (Old Cafeteria) on the UMR campus. In addition to the Gloria, the December performance at Fort Leonard Wood Main Post Chapel and the Rolla First Baptist Church will include the Christmas Oratorio by Camille Saint-Saens. Both musical compositions are scored for solo voices, mixed choir and string orchestra with oboe, trumpet, harp and organ.

The orchestra, under the direction of Assistant Professor Joel Kramme, includes students, faculty and talented amateur musicians from the south-central Missouri area. University credit is available for participation in the orchestra and choir for those who are enrolled for the fall term at UMR. The choir rehearses at 12:30 each Monday, Wednesday and Friday.

Persons interested in participating in the University Orchestra or University Choir should inquire at the Music Office, G-9 Harris Hall, UMR, Rolla, Mo. 65401 or call 314-341-4185.

For 1978-79 Year

Outstanding Instructors Announced

By PAUL BRAUN

During the summer months, twenty-one University of Missouri-Rolla faculty members were selected as outstanding teachers for the 1978-79 school year.

These exceptional instructors were picked by the student and faculty members of UMR in balloting at the end of the Winter 1979 semester and they will receive faculty teaching awards at a dinner later on this fall.

The outstanding teachers are:

Professors William A. Andrews, civil engineering; Kaare J. Nygaard, physics; Charles A. Sorrell, ceramic engineering; William H. Tranter, electrical engineering; Thomas J. O'Keefe, metallurgical engineering;

Associate Professors Jo W. Barr, history; Arlan R. DeKock, computer science; Thomas J. Dolan, nuclear

engineering; D. Ronald Fannin, electrical engineering; Nord L. Gale, life sciences; August J. Garver, mathematics; Leonard F. Koederitz, petroleum engineering; Ward R. Malish, civil engineering; Myron G. Parry, engineering mechanics; James O. Stoffer, chemistry;

Assistant Professors William H. Desvousges, economics; C. Brian Harvey, psychology; David B. Oglesby, engineering mechanics; Norman S. Smith, mining engineering;

Lecturer William R. Tankersley, petroleum engineering, and Graduate Teaching Assistant Wayne P. Bailey, mathematics.

Missouri Miner

The MISSOURI MINER is the official publication of the students of the University of Missouri at Rolla. It is published weekly at Rolla, Missouri. The MISSOURI MINER features activities of the students and faculty of UMR.

Staff Positions Open:

Features, Sports Assistant Editors
News, Features, and Sports Writers
Photographers
Advertising Sales

If you are interested be at the next meeting at 9:00p.m. next Monday in Building T-1 North of the coalpile

Miner Office Phone: 341-4235

Subscriptions are available to the general readership at a rate of \$6 per semester.

Articles and photos for publication in the Miner must be in by 9 p.m. on Monday before printing on Thursday.

T-1
University of Missouri-Rolla
Rolla, Mo. 65401

Saturday

ABS

On Saturday, Aug. 25, the Association for Black Students is sponsoring a dance in St. Pat's Ballroom from 9:00-12:00.

Sunday

SPORTS CAR CLUB

The UMR Sports Car Club is having its annual Rookie Challenge Autocross this Sunday, August 26. This is your chance to find out what the Sports Car Club is about, and it's FREE. As always, the autocross is open to everybody, especially first timers, and any type of car can be run. Dash plaques will be awarded to all participants. Sign ups will start at 12:00 noon and runs will begin at 12:30 p.m.

Monday

RUGBY!

The first meeting of the UMR Rugby Club will be at 9:00 p.m. in the basement of Phi Kappa Theta, 707 State St. All new players interested should come if interested.

Wednesday

EMA-AIIE

We will hold our first meeting Wednesday, August 29 at 7:00 p.m. in G-5 HSS Building. Memberships will be taken. Refreshments will also be served.

PLACEMENT ORIENTATION SEMINAR

The University of Missouri-Rolla Placement Center will hold Orientation Seminars for all students who wish to have job interviews this semester on August 29 and 30.

Students interviewing for Permanent employment who have not previously interviewed in the Placement Office will meet in Centennial Hall, University Center East, at 7:00 p.m. on Wednesday, August 29.

Students interviewing for Summer jobs who have not previously interviewed in the Placement Office will meet in Centennial Hall, University Center East, at 7:00 p.m. on Thursday, August 30.

Both sessions will provide instructions on registration procedures, interview signups, and suggestions for effective job interview tactics. Attendance is required if you have not previously interviewed in the UMR Placement Center.

APO Bookstore Hours

The APO Bookstore will be open from 9:00-3:00 Monday through Friday from August 20-August 31. They are located in the east end of the University Center. APO sells books for students. The students say what they want for the book. APO adds a 10 percent handling charge and then sells the book. During the week of August 27-31 APO will be paying cash to the students whose books sold. All of the profits made from the bookstore will be used in the many service projects done by Alpha Phi Omega.

This fall, the new University bookstore (top) has joined in the competition for the student's textbook dollar. Campus Bookstore (bottom) at 12th and Rolla remains competitive while Scott's has dropped the textbook line.

Enrollment Reaches Record High

SOURCE: OPI

Enrollment at the University of Missouri-Rolla, at the start of classes Aug. 20, hit an unofficial all-time high of 5,425 students. According to registrar, Paul Ponder, the previous top enrollment figure was 5,285 students in 1970.

Enrollment at the end of regular registration last fall was 5,214, indicating a gain of 211 students over the previous year.

Director of admissions, Bob Lewis, attributes the increase in enrollment to three major factors. "There is an exceptionally good job market at the present time for engineering and science graduates," he says, "and it is

likely to remain so for some time. In addition, UMR has the reputation of providing a quality program and the fact that it is a state institution gives it a financial advantage for Missouri students over private and out-of-state schools.

Dull Work High Pay!

HEAD TRANSPLANTS

On July 31st, 1979, heart transplant pioneer Christian Barnard said he rejected an offer of \$250,000 from the National Enquirer to assist in the transplantation of a human head from one body to another.

"I didn't even consider it," Barnard said. "The idea is immoral, unethical, impractical and of doubtful legality."

Barnard, if he had accepted the offer, would have acted as a consultant to a group of American neurosurgeons who have successfully transplanted the heads of hundreds of dogs, rats, and monkeys from one body to another at the Cleveland Metropolitan General Hospital.

Barnard had profound misgivings about this particular research being done on man. He said, "What quality of life can a human head have? And what morality is there in offering someone such a life?"

SALIVATORY DIFFERENCES

There is now positive proof that shy people are different. A group of Scottish experimenters have found that introverts salivate more than extroverts. Dr. W.J. Corcoran of Glasgow University, coordinator of the experiments, claims no explanation for why the mouths of outgoing people should be drier than those of people with more reserved personalities. But that's what the experiments showed. When lemon juice was dropped on the tongues of extroverts and introverts, the latter always salivated more heavily.

NATIONAL EXPERT SNIFFER

Just a few months ago, Albert L. Weber held a fish under his nose and took his last official sniff. Then he retired what may well be the most accurate proboscis ever in the history of American law enforcement.

Since 1942, Al had been a smeller-feeler for the United States Food and Drug Administration. His job was to spot-check shipments of seafood coming into New York, to classify it by freshness, and to prevent shippers from sneaking in loads that were contaminated or spoiled.

By his retirements, Al was one of only two federal fish smellers rated as "national experts." Although most of the testing these days is done with chemicals and test tubes, Al's nose was quicker and just as accurate. His rating was never overruled.

Obviously, the FDA was sorry to see Al go. The last few years they've had Al training a new generation of super-sniffers in a course called "The Organoleptic Determination and Interpretation of Odors of Decomposition in Seafood."

WORDY PAPERS VS CONCISE PAPERS

Two Chicago English profs, Joseph Williams and Rosemary Hake, have recently discovered an effective way of improving grades on term papers. They took a well-written paper and changed the language a bit — keeping the ideas and concepts the same, but writing two different versions. One paper was written in simple straight-forward language and the other in verbose language, loaded with complicated words and phrases.

Williams and Hake submitted the two papers to nine high school teachers with surprising results. All nine scored the wordy paper near perfect while marking down the simple, understandable version as too shallow. After those initial findings, the professors submitted the same two papers to 90 more teachers. The results were similar. Three out of four high school instructors and 2 out of 3 college profs gave the wordy paper higher marks.

Hemingway would have flunked.

SUB Coffee House

"Arnie Brav Coming Back"

Coming back to UMR for a repeat performance is Arne Brav. His concert is brought to you by the Student Union Board. It will be this Friday at 8:00 p.m. "on the mall." (in case of bad weather, it will be held in Cent Hall).

Arne has brought his fast-paced, delightfully personal performances to college coffeehouses and concerts throughout the country, while also being called upon frequently to put his musical and stage experience to work in warming up concerts for people like Tom Chapin, Jesse Colin Young, Doug Kershaw, Pure Prairie League, John Sebastian, Minnie Riperton and

Judy Collins. Standing ovations and encores have been common at these concerts.

Considering his admitted lack of formal music education, Arne's music covers a broad musical spectrum, all of it with great effect. In fact his repertoire during a performance confounds those who are prone to attach labels like "folk singer" or "blues singer." Instead, he touches almost all the standard musical bases: Ragtimes, blues, rot-gut country, old-time instrumentals, jazz, plus a wide range of contemporary songs (many of which he authored, often having that rare combination of artistic and popular

appeal). Combine all this with a hearty lineup of humorous songs and stories, and you have the definitive performer. An artist in his own right.

Arne Brav is not to be written off mildly as "another folk act." With his own, very special brand of performing a variety of songs and styles, he has brought back to audiences the satisfaction and excitement of witnessing the lone performer — the man and his music — doing what no other performer in the world can do. It is the essence of entertainment, and has earned Arne Brav a loyal and growing group of followers throughout the college community.

Writer's Opinions Do Matter

Campus Digest News Service

Journalists will have to be careful of what opinions they express while they work on a story — because those opinions may come back to haunt a journalist during a libel case.

In a landmark ruling, the Supreme Court voted 6-3 to force libel defendants to disclose the opinions and thought process they had while

handling a story and exercising editorial judgement.

Journalists on all levels and in all the media will now be held accountable not only for what they write, but what they think as well.

Liberal interpreters of the First Amendment fear the ruling will have a "chilling" effect on the editorial freedom of journalists. But Walter J. Brennan Jr., one of the

dissenting justices, disagrees.

"Since a journalist cannot work without such internal thought processes, the only way this aspect of the editorial process can be chilled is by a journalist ceasing to work altogether."

One of the other dissenters, Justice Potter Stewart, strongly opposed opening the thought process of journalists to judicial scrutiny. "What is not published has nothing to do with the case," he wrote.

In *New York Times vs. Sullivan*, the Supreme Court ruled that falsehood was not enough to prove libel in cases of public figures and public officials. Malice or "reckless disregard of the truth" became the new standard in those cases.

The recent Supreme Court decision, in *Herbert vs. Landau*, allows the plaintiff more of a chance to prove malice or reckless disregard of the truth.

Journalists across the country have complained that their First Amendment rights have been infringed upon.

UMR B-Ball Star Drafted

UMR PR RELEASE

Dallas Kirk, star center for the University of Missouri-Rolla women's basketball team, was drafted in the ninth round by the Milwaukee franchise of the Women's Professional Basketball League.

She is the daughter of Robert and Deanne Kirk, 511 W. Toledo, Broken Arrow, Okla., and received a B.S. degree in psychology in May from UMR.

Basketball and Track

The six-foot-two-inch Kirk transferred to UMR from Northeastern Oklahoma A&M Junior College, Miami, Okla., and started for the UMR Miners for the past two seasons. She averaged 20 points and 14.5 rebounds per game last season, hitting 49 percent of her shots from the field and 53 percent from the free throw line.

"Dallas was regarded as the best center in any Missouri

small college basketball program this past year," says UMR Miner coach Annette Caruso. "With her size and her moves, she enabled us to have an advantage over several of our opponents. She was an invaluable asset to our team."

UMR has had a women's basketball program for just five years and has participated in Missouri's Small College State Basketball Tournament for the

past two seasons. The Miners won third place in last spring's contest. Kirk was named to the All Tournament Team.

The Women's Professional Basketball League has franchises in Milwaukee, Chicago, San Francisco, Los Angeles, Dallas, Philadelphia, St. Louis, Washington, D.C., New Orleans, Houston, New Jersey, New York, Iowa and Minnesota.

DALLAS KIRK

SEMO Sports Placed On Probation

MIAA RELEASE

CAPE GIRARDEAU — Basketball and track teams from Southeast Missouri State University have been declared ineligible for conference championships and post-season competition during the 1979-80 season as a result of action taken by the Missouri Intercollegiate Athletic Association.

Although the infraction committee's decision was to honor the NCAA's decision to place the school on a one-year probation, conference by-laws require that any infraction occurring while a member institution is on MIAA probation results in the ineligibility of all of the university's athletic teams for conference championships and post-season play.

Six student athletes (Darryl Anderson, track; Larry Cary, track; Ricky Reynolds, track; Ray Bartle, basketball; An-

thony Thomas, basketball; Desi Barmore, basketball) were declared ineligible to compete in post-season contests by the NCAA.

Conference by-laws also state that student eligibility standards for post-season play are the same for regular season competition, as a result, the six students would be unable to compete during the coming season.

Dr. Bill Stacy, interim president of Southeast Missouri State University, filed appeals with the MIAA and NCAA for the reinstatement of eligibility for conference championships and for the student athletes involved.

MIAA infraction committee members reached their decision at a meeting held in Kansas City on July 20.

Alton Bray, MIAA president, chaired the conference call meeting on Friday, July 27, to act on the appeals.

Officials of the seven member

schools accepted the appeal for reinstatement of all of Southeast's athletic teams for conference championships with the exception of the two sports involved — basketball and track. Officials voted not to accept appeals for the student athletes but agreed to honor the outcome of the NCAA appeals.

Eligibility for the three track performers will be reinstated upon payment to Assistant

Track Coach Tim Radermaker of expenses incurred in transporting the individuals from their homes in Ohio to the campus.

Senior Ray Bartle's eligibility has been restored without provision.

Center Anthony Thomas will regain eligibility when he returns the tee shirt given to him or upon payment of the

estimated value of the article (\$2.50).

Appeal efforts for Barmore failed. He has been declared ineligible and will be unable to participate in intercollegiate basketball at Southeast Missouri State University.

The penalty period began on May 11, 1979, and ends May 11, 1980. All team restrictions are lifted at that time.

MIAA Cager Turns Pro

NEMSU PR RELEASE

KIRKSVILLE, Mo. — Ved Green (Mt. Clemens, Mich.), an all-conference and all-district forward, who helped Northeast Missouri State win the Missouri

Intercollegiate Athletic Association basketball championship last season, has signed to play for Kalmar, Sweden, a team in one of the European Professional Leagues.

Green will report Aug. 13 to the Kalmar club for the start of

and is currently second on the all-time school single campaign point production list. He rewrote the NMSU mark for most field goals in a single season with 226. As a junior, he pumped in 15 straight shots from the field for a new school record.

Green was a two-time all-MIAA selection, and landed on the first all-district list as a senior, as well as the NCAA Division II South Central five-man all-regional tournament team.

NMSU finished the campaign with a 20-8 overall ledger, ranked as high as sixth in the NCAA Division II national poll this past winter, and competed in the South Central Regional at Thibodaux, La.

practice. He said the campaign will open later in the month and continue through next April. The 6-6, 195-pounder, who will probably swing from forward to center, will receive a salary, and will be furnished an apartment and car. He said he will probably be the only U.S. player on the Swedish team.

During the 1978-79 season at NMSU, Green led the Bulldogs in scoring with a 17.7 average,

New Sports Specialist Named

UMR PR RELEASE

Gene Green, former assistant sports editor for the Cape Girardeau Southeast Missourian, will begin his job Monday (Aug. 20) as the University of Missouri-Rolla's information specialist in sports.

Until this appointment, UMR was the only institution in the MIAA without a full-time sports

writer.

Green, 26, was sports editor for the Mount Carmel, Ill. Republican-Register for three years before the Cape Girardeau position. He holds a bachelor's degree from Southern Illinois University, Carbondale.

Green's office will be in the Gale Bullman Multi-Purpose Building (telephone 341-4175).

Soccer Becomes Varsity Sport

UMR PR RELEASE

Soccer has been made a varsity sport at UMR, and this will be the first year of regular competition. Tryouts for the varsity soccer team are scheduled from 4 to 5:30 p.m. Monday and Tuesday, Aug. 20-21, at the new UMR soccer field (former baseball outfield).

Those eligible for the team

include any UMR undergraduate with soccer skills, some graduate students who are lettermen in other sports, and former members of the International Soccer Club.

Those wishing to participate in tryouts should report to the soccer coach, Dr. Lon Pearson. Dr. Pearson is associate professor of Spanish at UMR.
